**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1 and 12-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weber(5,513,418) in view of McCormick(6,289,552).

Weber discloses a similar floor cleaning apparatus however fails to disclose a canister assembly, suction generator or dirt collection vessel.

Weber discloses a nozzle assembly including a housing defining an agitator cavity (fig. 5, #10, housing-#11, cavity-area contained therein).

Weber discloses connection of the nozzle assembly to a main suction body (col. 3, lines 13-14). McCormick discloses a floor cleaning apparatus having a canister assembly(main suction body) connected to a nozzle assembly, a suction generator carried by one of the nozzle assembly and canister assembly and a dirt collection vessel carried by one of the nozzle assembly and canister assembly (fig. 1, #18,33,34). It would have been obvious to one of ordinary skill that Weber would require the canister assembly(main suction body) connected to a nozzle assembly, a suction generator carried by one of the nozzle assembly and canister assembly and a dirt collection vessel carried by one of the nozzle assembly and canister assembly, as disclosed in McCormick et al., so that it would be a complete, operational floor cleaning apparatus.

Art Unit: 1744

Weber discloses an agitator fitting received in the cavity, including a cooperating air guide and conduit, the conduit defining an intake port (fig. 5, #50,80, air guide-region defined by #50, conduit-#16 with intake port being #96).

With respect to claim 12, Weber discloses the air guide partially lines the agitator cavity (fig. 1, #50).

### *Allowable Subject Matter*

3. Claims 2-11 and 14-21 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### *Response to Arguments*

4. Applicant's arguments with respect to claims 1 and 12-13 have been considered but are moot in view of the new ground(s) of rejection.

### *Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1744

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
